HBO reserves the right to make a schedule change or program substitution without notice.

It all adds up to entertainment.

You get a chance to see more movies in a month than most people do in a year. That's one big advantage of having HBO. And almost all are movies never shown on television before. A few may be movies you might have missed when we showed them some months earlier.

HBO is much more than movies, however. You get the bonus of exclusive sports, specials and original HBO programs—like this month's *All-Star Baseball* from Japan and the incomparable *Young Comedians* special with Victor Borge.

In sum, HBO offers you a tremendous entertainment package. This month. Every month.

It's really a lot like going out to a theater, a nightclub or a sports arena for your entertainment. Because with HBO, everything is unedited and uninterrupted by commercials.

Besides, HBO programs play several different times, on different days—unlike commercial television, which gives you one chance at a time to see a show.

You even get a chance to preview a program person-

ally, so that *you* can decide if you want others in your family to see a movie or a special. And if you really like a show, you can enjoy it again. (The majority of our subscribers do this every month.)

Yes, HBO offers program variety to appeal to many different tastes: adventure, romance, Westerns, science fiction, documentaries, comedies, musicals and on and on and on!

Movies. Sports. Specials. They all add up to HBO. And HBO adds up to *entertainment*.
